

Recruitment, Interviewing & New Hire Onboarding Policy

Version 2026.1 | Requisition Governance, Structured Interviewing, and the 30-60-90 Day Framework

Section 1: Requisition Approval & Sourcing Governance

Every open role requires an approved headcount requisition (Form REQ-200) signed by the hiring manager and the relevant VP before Talent Acquisition begins sourcing. Requisitions above Grade L5 additionally require CFO sign-off given the compensation impact. Roles are posted internally for a minimum of 5 business days before external sourcing begins, consistent with the internal mobility priority policy.

Section 2: Interview Process & Structured Evaluation

All candidates progress through a structured interview loop calibrated by role family: a recruiter screen, a hiring-manager screen, a skills or technical assessment, and a panel loop of 3-4 interviewers scoring independently against a shared rubric before any group discussion. Interviewers submit scorecards within 24 hours of the interview to reduce recall bias.

Stage	Typical Duration	Owner	Pass Criteria
Recruiter Screen	30 minutes	Talent Acquisition Partner	Role fit, compensation alignment, logistics
Hiring Manager Screen	45 minutes	Hiring Manager	Motivation, experience depth
Skills Assessment	60-90 minutes	Subject-matter panel	Threshold score per role rubric
Panel / Onsite Loop	3-4 hours	Cross-functional panel	Majority recommend-to-hire
Final / Bar-Raiser	45 minutes	Senior leader outside team	Independent go/no-go

Section 3: Offer Approval, Background Screening & Pre-Boarding

Compensation offers are generated from the approved salary band (see Salary Structure Bands) and require Compensation Committee approval for any offer above the band midpoint. Offers are contingent on successful completion of background screening, covering identity verification, prior employment confirmation, and education verification; criminal background checks are conducted only where legally permitted and role-relevant.

Pre-boarding begins immediately upon offer acceptance: IT provisions accounts and equipment, HR issues statutory new-hire paperwork, and the assigned onboarding buddy is notified, all completed at least 3 business days before the new hire's start date.

Section 4: The 30-60-90 Day Onboarding Framework

New hires and their managers jointly track integration against a structured 30-60-90 day plan:

- **Day 1-30 (Learn):** Complete mandatory compliance training, meet key stakeholders, understand team processes and tooling, and complete the first 1:1 with the HRBP.
- **Day 31-60 (Contribute):** Take ownership of first assigned deliverables, participate fully in team rituals, and complete the 30-day check-in survey.
- **Day 61-90 (Deliver):** Operate independently on core responsibilities, set goals for the next two quarters with the manager, and complete the probation-closing review.

Onboarding Buddy Program: Every new hire is paired with a peer buddy (minimum 6 months' tenure, not their manager) for the first 90 days to accelerate social and cultural integration.

Section 5: Probation Confirmation & Early Attrition Review

Probation confirmation follows the milestone evaluations described in the Employee Handbook (Day 30, 60, 85). Any voluntary or involuntary exit within the first 6 months triggers a mandatory early-attrition review by Talent Acquisition to identify sourcing, interview, or expectation-setting gaps.

Section 6: Internal Referral & Employee Value Proposition

Employees are encouraged to refer qualified candidates through the internal referral portal; referral eligibility and payout amounts are governed by the Bonus Payout Matrix. Recruiters are expected to present candidates with a consistent Employee Value Proposition covering compensation philosophy, benefits, learning investment, and flexible-work options, avoiding verbal commitments that are not reflected in the written offer letter.

Section 7: Diversity Sourcing & Fair Hiring Commitments

For every open requisition, Talent Acquisition maintains a documented sourcing plan that includes at least one diverse slate channel appropriate to the role and location. Interview panels for Grade L4 and above roles must include at least one panelist from outside the hiring manager's immediate function to reduce in-group bias. Compensation offers are benchmarked strictly against the approved salary band and the candidate's assessed level, never against a candidate's prior salary alone, to avoid perpetuating historical pay disparities.

Section 8: Contractor-to-Employee Conversion

Fixed-term contractors converting to full-time employment undergo an abbreviated interview loop (hiring manager screen and a single panel round) rather than the full external process, and their prior contract tenure is not counted toward full-time service-length calculations for leave accrual or gratuity purposes unless explicitly stated in the conversion offer letter.

Section 9: Candidate Data Privacy & Retention

Candidate resumes, interview scorecards, and assessment results are retained for 24 months following the close of a requisition to support future re-engagement and to defend against potential hiring disputes, after which they are automatically purged from the applicant tracking system. Candidates may request earlier deletion of their data by emailing the privacy inbox, and such requests are honored within 30 days except where retention is required by an active legal matter.

Section 10: Rejection Communication & Candidate Experience Standards

Every candidate who reaches the panel-interview stage receives a personalized rejection communication within 5 business days of the final hiring decision, including where feasible one constructive area of feedback. Candidates rejected at the resume-screen stage receive an automated but professionally worded notification within 10 business days. Recruiters track time-to-first-response and time-to-decision metrics, reviewed monthly to identify bottlenecks in the pipeline.

Section 11: Roles & Responsibilities Summary

Stakeholder	Primary Responsibility
Hiring Manager	Define role, participate in interviews, make final hire decision
Talent Acquisition Partner	Source candidates, manage pipeline, coordinate offer
HRBP	Compensation guidance, statutory paperwork, probation tracking
IT / Workplace Ops	Equipment provisioning, system access, desk setup
Onboarding Buddy	Peer support and cultural integration for first 90 days
